Impacts of Malaria

Following the Trail of Malaria's Reach

While working with a partner and using information from the video, create a mind map to show the long-reaching impacts of malaria.

Start with three stems: social impacts, personal economic impacts, and national economic impacts. Try to have at least two specific impacts branching from each stem. Some impacts may have consequences relating to more than one stem.

Be sure to develop your points beyond the basic ideas. For example:

You can use the mind map template on the following page, re-create the starting stems on a larger piece of paper, or use an online mind-mapping tool.
